

PBIS: Using Data for Decision Making

Virtual Sessions

This session will guide Positive Behavioral Interventions and Supports (PBIS) teams in how to use discipline data to answer critical questions about their PBIS schoolwide implementation. We will discuss sources for data collection, the frequency of collecting data and what types of data should you collect. We will also discuss how the data can help your team answer questions by leading you through a problem solving process and how to monitor and evaluate student outcomes.

November 8, 2023

2:30 - 3:30 p.m.
